

HYBRID LEARNING ENVIRONMENTS CORPORATE APPLICATIONS

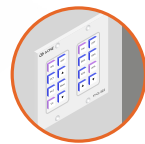

IN ROOM. ONLINE. BE THERE.

Enjoy an even smarter way of learning. The CORIOmaster family offers a unique, mixed reality stage where all participants remain totally engaged throughout every meeting whether they are seated in the lecture theater or joining remotely.

Create highly engaging corporate and workplace spaces with fully immersive workplace experiences irrespective of your location or choice of UC (Unified Communications) platform.

Remote participants see the presentation and speaker

A wall mounted control panel controls the CORIOmaster screens wirelessly

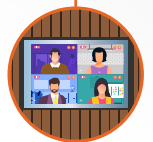

Another LED screen also displays the presentation

A custom LED display shows the presentation

Two ceiling mounted PTZ cameras film the speaker and presentation for remote participants

Repeat displays on either side show remote participants in the meeting via webcam

EQUIPMENT LIST

- 1 x CORIOmaster mini (C3-510)
- 1 x Dual HDMI input card - CORIOmaster mini has 2 DVI-I inputs standard (CM-HDMI-4K-2IN)
- 1 x Streaming media input module (CM-AVIP-IN-1USB-1ETH)
