High performance KVM over IP

The ultimate solution with zero latency, true 4K60 performance and easily scalable to thousands of endpoints.
HOW CAN ANYONE WORK LIKE THIS?

**CHOOSE KVM!**

CAT/Fiber

Improve efficiencies and keep your PC’s safe and secure while de-cluttering your work environment.

Move hot and noisy PC’s to the machine room with fully transparent USB connectivity for file copying and support for extended desktops.

That’s just the start with **Pathfinder**!

Adding a standard IT switch allows multiple users to connect to multiple PC’s. It’s also possible to show up to four sources per display with seamless control from a single mouse and keyboard.

KVM OVER IP

Redefined by Magenta Research®

- **Cross-Click**
  - Boost ergonomics by controlling several PC’s with just one mouse and keyboard
- **WindowView**
  - View and control up to 16 PC’s on 4K displays. View any source full screen in an instant
- **Zero Latency**
  - No mouse lag or switching delay in any mode - guaranteed!
- **Security**
  - Prevent unauthorized access, create user groups and individually defined access
- **Multi-Head Desktops**
  - Experience the freedom of extended desktops over KVM
- **Easy Configuration**
  - Quick set up for up to 3,000+ end points
- **Reduced Cost**
  - No licensing fees, no hard to manage keys or costly control servers
- **Scalable**
  - Create new workflows in single rooms, multiple floors or whole campuses

**Industry Applications**

**Pathfinder** is the perfect solution wherever performance and image quality matters

- **Theme Parks**
  - Collaborate effectively while keeping sensitive data safe and secure. **Pathfinder** is a license free, affordable solution with a class-leading 89,000 hour MTBF and a 5 year warranty.
- **Corporate**
- **Live Events**
  - KVM for live events and fixed installations demands a highly dependable, zero-latency solution with simple, reliable remote operator control and with a wide range of supported input types.
Welcome to ultra-high performance KVM over IP

Mix and match source resolutions using our transmitters and receivers for HD and 4K workflows over CAT or Fiber. Create the solution that you need from small point to point systems, right up to large matrix switching solutions with up to 3,000+ endpoints.

Pathfinder 800 series
DisplayPort 1.2
- KVM and transparent USB 2.0 over fiber or CAT
- Capability: KVM and transparent USB 2.0 over fiber or CAT
- DisplayPort 1.2
- Inputs: DVI-I, HDMI & VGA
- Max Resolution: 4096x2160 @ 60Hz 4:4:4 24bit
- Max Distance: 10km
- Network: 10G

Pathfinder 500 series
DisplayPort 1.2
- KVM and transparent USB 2.0 over fiber or CAT
- Capability: KVM and transparent USB 2.0 over fiber or CAT
- DisplayPort 1.2
- Inputs: DVI-I and VGA
- Max Resolution: 1920x1200 @ 60hz with HDCP 1.4
- Max Distance: 20km
- Network: 1G

Connect point to point
Connect dual screens
Experience an optimized KVM over IP with resolutions up to 4K/60 4:4:4 and up to 20km with fully transparent USB 2.0 connectivity.

Deploy extended desktops with Pathfinder using DVI-I or DisplayPort. The Pathfinder 800 series has a built in MST (Multi Stream Transport) splitter for efficient deployments.

WindowView allows space saving with easy monitoring and control. Manage up to four PC’s from a single 4K monitor, while using only a single keyboard and mouse to control the PC of your choice. Going full screen is simple. One keystroke will make the source you are hovering over fill the 4K screen. If you want to go large, link up to sixteen sources across four displays.

Pathfinder 500 and 800 series endpoints can be integrated into a large matrix system using standard networking switches. Switching between PC’s is easily achieved using an On Screen Display (OSD) menu, user definable hot keys or with our intuitive Pathfinder Control software.
Flexible Control Options

Pathfinder is packed to the brim with choices for how you want to take control to match, simplify and enhance your workflows. In addition to a smart OSD (On Screen Display), user-definable hot keys and Pathfinder Control software, other highly intuitive options include Cross-Click and WindowView.

Using Cross-Click it’s easy to forget that you are working on multiple PC’s, since there is no mouse lag whatsoever. Simply glide your mouse cursor from screen to screen for ultra-slick workflows even in the most pressurized environments, with no additional hardware.

Configure and control up to 3,000+ Pathfinder encoders and decoders. Connect, disconnect or configure using System Administrator or User level access.

User definable key strokes allow smooth workflows.

View and control up to 4 computers on a 4K display with zero latency.

Combining WindowView with Cross-Click, it’s possible to control up to 16 PC’s across up to four displays.

User settings can also be made available and adjusted at the desktop.
## Companion Products

<table>
<thead>
<tr>
<th>Product Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Videowall Processor Family</strong></td>
<td><strong>CORIOmaster</strong> Create the ultimate multi-window video experience for your small, medium and large video walls and LED installations without compromise.</td>
</tr>
<tr>
<td><strong>4K Multi-Window Processor</strong></td>
<td><strong>CORIOview</strong> Multi-window processor with up to 8 sources, plug-and-play set up and 16 buttons for preset recall or source selection making usability a breeze.</td>
</tr>
<tr>
<td><strong>HD Multi-Window Processor</strong></td>
<td><strong>C2-6104A</strong> Quad Window DVI multiviewer with five inputs including one for cascading or background usage.</td>
</tr>
<tr>
<td><strong>Power Supply</strong></td>
<td><strong>P2-105</strong> Simplify your installs with 12 Volt power distribution to replace up to five 12VDC adapters.*</td>
</tr>
<tr>
<td><strong>Racking Solution</strong></td>
<td><strong>ONErack</strong> Vastly improve the rack installation of Pathfinder encoders and decoders with integrated mounting, powering, cooling and cable management.</td>
</tr>
<tr>
<td><strong>Shelf Mount</strong></td>
<td><strong>RM-220</strong> Easily mount up to 4 encoders or decoders on this 1RU rack mount shelf.</td>
</tr>
