

REIMAGINE WHAT'S POSSIBLE

CALICO | PRO

VIDEO PROCESSOR

DEMAND VISUAL PERFECTION

High quality and visually
realistic processing

INTRODUCING CALICO

A radically innovative approach to video processing, our new CALICO processing engine delivers visibly enhanced image fidelity, together with even more flexibility.

CALICO provides advanced levels of performance and support for multi-window workflows designed to exceed and future proof any high-performance installation.

CALICO INSIDE

Our fifth-generation, proprietary processing engine delivers visibly enhanced image fidelity and even more video processing flexibility for all your needs today and in future.

HIGH PERFORMANCE

CALICO's advanced features set the new standard with no fixed window limits and has class-leading, ultra-low latency, 4K60, 10bit, high quality image processing and HDR support.

CALICO | PRO

REIMAGINE WHAT'S POSSIBLE

For integrators and designers that demand reliable, high-quality video processing with no visible latency, display with style and creative control.

WHAT MAKES CALICO PRO UNIQUE?

LED TOOLS

Doing Direct View LED right! Advanced set up tools, unlimited cropping, custom resolutions, and output mapping make for much more flexible LED set ups.

OUTPUT WATCH

Easily monitor your expansive LED, edge-blended projection, or display set ups with ease, for complete peace of mind.

ANY OUTPUT ANYWHERE

Enjoy complete visual freedom using our independent outputs for even more flexibility for your solution design.

SOURCE LINK

With our huge bandwidth capabilities, 8K is a breeze. For quad 4K workflows we can lock multiple sources together using Source Link for simplified set up and control.

POWERFUL SETUP AND CONTROL

ADVANCED FEATURES

Highly flexible platform with an on board still image store, window cropping, output mapping, output watch, keying and window labels as standard.

SMART INTERFACE

CALICO Studio is a highly intuitive, yet hugely powerful design software for fast, secure, flexible control.

FLEXIBLE SOLUTION

It is easy to configure your outputs as for Direct View LED with single or multiple outputs. It is also possible to create extensive projector edge blends or display walls – you choose!

CALICO | STUDIO

Powerful and easy to use setup and control software for CALICO video processors.

For custom control set ups, our extensive, real-time API is available free of charge and plug-ins are available for popular 3rd party control systems.
