The all-in-one video processor with more pixels than you’ll ever need.

CORIOmaster²

Industry leading 4K/8K performance

Captivate your audience with the most powerful video processor on the planet! Create the ultimate 4K60 video experiences for your high-profile LED installations, projection edge blends or monitor walls.
A truly massive video design canvas allows for unbridled creativity with more 4K60 windows than you ever imagined possible.

**The Video Processor Redefined**

- **Huge 12 Gigapixel Design Canvas**
  - Seamlessly manage multiple walls from a single chassis.
- **Up to 128 video windows**
  - Up to 64 windows per canvas with 128 windows for the total system.
- **Go large and creative**
  - 360° rotation and up to 56 displays with high bandwidth outputs.
- **Synchronized playback**
  - Create eye-catching visuals with multi-screen media playback.
- **Multi-user control options**
  - Choose from CORIOgrapher software, 3rd party control or button panel.
- **Easy 8K source management**
  - Quad 4K workflows for source input and display output.

**Unparalleled Performance**
- Simultaneously display up to 40 windows in 4K60 with normally one frame of latency.
- Proprietary FPGA technology optimized for 4K60, 4:4:4 outputs and is 8K ready.
- Intuitive and versatile, software - perfect for powerful creative design and control.

**Powerful**
- **FPGA**
- **CORIO Video Processing**

**Creative**
- **Smart Design**
  - Future-proofed design to grow with you and featuring a striking front panel that will stand out in any rack!
- **Design Flexibility**
  - Create mosaics, square walls, expansive edge blends and power your LED walls with pixel-perfect performance.
- **Independent Canvases**
  - 12 Gigapixels of design canvas allows three independent working areas for multiple walls.

**Simple**
- **Extremely Reliability**
  - 5-year warranty and optional dual redundant PSU’s - it’s easy to see why we are trusted by professionals.
- **Modular Platform**
  - Flexible architecture accepts digital, IP, broadcast and legacy AV inputs to exceed requirements.
- **Secure Comms**
  - Keep your information safe with HTTPS SSL connectivity and AES IP decodes. Also experience RESTful multi-user control with remote monitoring.

**Experience ten times more 4K60 windows!**

tvONE has delivered video wall excellence since 2011 with the multiple award-winning CORIOmaster. With higher resolutions becoming a standard requirement in many installs, CORIOmaster2 has been designed from the ground up to give massive performance gains.

911 Emergency Operations Center, Peoria, Illinois
**Ease of Control**

Control options include CORIOgrapher software, CORIOmaster app, a Crestron plug-in or our control button panel.

Also, create custom control environments using our real-time RESTful API.

**4:4:4 Output Performance**

Manage your video chroma subsampling and custom resolutions via CORIOgrapher for simple, seamless integration of your LED walls. CORIOmaster2 has 4:4:4 inputs and outputs and can also upsample 4:2:0 or 4:2:2 content to 4:4:4 for maximum flexibility.

**Education**

- Assured communication
  - HTTPS & RESTful API control using software, button panels or 3rd party solutions.

- Flexible display choice
  - Deploy LED, edge-blended projectors or display panels. Control multiple walls from a single system.

- Low cost of ownership
  - Low power consumption when compared to competitor systems that are based on PC architecture.

- IP Stream connectivity
  - Low latency H.264 and H.265 IP with mixed feed playlist carousels.

- Ultra-reliable
  - tVONE exclusive design and manufacturing with a a 5-year warranty.

- Demand lip sync perfection
  - Best-in-class latency for video and IP sources.

**Corporate**

- See every detail
  - Seamless 8K workflows when every detail matters with quad 4K60 windowing.

- Engage the team
  - Eye-catching transitions and animations or seamless video switching.

- Mix and match
  - Source choices include: IP decoding, digital AV, broadcast, legacy AV or a media player for 4k video and stills.

- Make it sing
  - Embedded audio from source to display or choose external breakout for hook up to external systems.

- Take control
  - Multi-user control options include software, 3rd party controllers or our button panel.

- CORIO inside
  - The best up, down and cross conversion in the industry!
**Healthcare**

- **Demand ultra low latency video**
  Best-in-class latency for video and IP sources.

- **Experience life-like color**
  4K60 4:4:4 inputs and outputs. Even with 4:2:0 and 4:2:2 sources.

- **CORIO™ inside**
  The best up/down and cross conversion in the industry!

- **See every detail**
  8K workflows when every detail matters with quad 4K60 windowing.

- **Assured communication**
  HTTPS & RESTful API using software, button panels or 3rd party solutions.

- **Ultra-reliable**
  tvONE exclusive design and manufacturing with a 5-year warranty.

8K **Workflows**

8K is seen as essential in industries that rely on detailed, color accurate reproduction. CORIOmaster2 can place four 4K60 sources together and deliver them as quad link HDMI 2.0 to an 8K monitor.

---

**Broadcast**

- **Lifelike video**
  High bandwidth processing for immersive 4K60 4:4:4 performance.

- **Mix and match**
  Full support for IP, digital AV, broadcast and legacy AV sources.

- **Be creative**
  Unlimited 360° source and display rotation and up to 56 outputs.

- **Simple control**
  Multi-user control options include software, app, 3rd party controllers or our button panel.

- **CORIO™ inside**
  The best up, down and cross conversion in the industry!

- **Synchronize your videowall**
  Lock to any input to remove conversion artifacts.

**Synchronized Playback for Ultra-Wide Canvases!**

The streaming media and 4K playback input module can now simultaneously play up to eight reliable, synchronized media clips onto ultra-wide video canvasses. This allows you to get creative and go beyond 4K resolutions to inform, boost revenues and multi-purpose your installations. Additionally, use our FTP integration tools to introduce more efficient workflows.
Corio® Inside
- The best up, down and cross conversion in the industry!
- Future proof your investment
- Modular platform and field upgradeable software.
- Demand lip-sync perfection
  - Best-in-class video latency for video and IP sources.
- Mix and match
  - Full support for low latency IP, digital AV, broadcast and legacy AV sources.
- Experience life-like color
  - 4K60 4:4:4 output performance even with 4:2:0 and 4:2:2 sources.
- Synchronize your world
  - Synchronize your wall sources to prevent image tearing.
- Go large
  - Manage multiple walls from a single chassis.
- Go large and creative
  - 360° source and display rotation and up to 56 displays.
- Every detail matters
  - Support for 8K workflows with quad 4K60 windowing.
- Eye-catching transitions
  - Window movement and source switching transitions.
- Doing LED right
  - Pixel perfect installations.
- Ultra-reliable
  - tvONE exclusive design and manufacturing with extreme reliability and 5-year warranty.

Smart Dynamic Windows for Visual Impact
- CorioMaster2 windows are a highly flexible video layers that can be independently positioned, layered and have a transition applied.
- For maximum flexibility, display up to 128 video windows on screen at the same time. Freely position and layer sources anywhere on our design canvases.
- Your favorite window layouts can be saved as system presets for quick recall and then brought to life using our eye-catching transitions.

Best-in-Class Scaling and Format Conversion
- Experience industry leading scaling for HD, 4K and 8K sources with Corio®, our proprietary technology.
- CorioMaster2 processes the equivalent of over 1 trillion video matrix calculations per second with 1 to 2 frames of signal delay from input to output, guaranteeing the highest quality video possible with no visible lag.
**Chassis**

CORIO\textsuperscript{master2} is the modular and field-upgradeable solution to future proof your investment.

**INPUT MODULES**
- Dual 4K HDMI Supports resolutions up to 4096x2160/60p.
- Quad 4K60 HDMI Supports resolutions up to 3840x2160/60p.
- Dual DVI Universal Supports resolutions up to 1920x2000/60p.
- Quad 3G-SDI Broadcast Supports resolutions up to 1080/60p or 500ft reach with HD-ONE DX500.
- Eight HDMI Supports resolutions up to 4096x2160/60p.
- S/PDIF and Analog Audio Supports resolutions up to 4096x2160/60p.
- 4K Streaming & Media Low latency H.264 & H.265 streaming decoding. 8 source labeling. Playback of video clips and stills from on-board 128Gb SSD.

**OUTPUT MODULES**
- Dual 4K HDMI Supports resolutions up to 4096x2160/60p.
- Quad 4K60 HDMI Supports resolutions up to 1920x2000/60p.
- Air Filter

**ADAPTORS**
- For use with legacy AV formats
  - HDMI
  - CV
  - Analog PC
  - YC (S-Video)
  - Analog RGBHV
  - YPbPr/YUV

**CORIO\textsuperscript{grapher}**

Our creative video wall software allows ultra-quick video wall set up working in either online or offline modes. Resize and move sources, control media clips or IP streams and control your entire visual experience using presets or our dashboard interface.

**Control**

Other options for real-time control include Apps. Control panels or 3rd party control linking to our open source, real-time API.

- tvONE CORIO\textsuperscript{master} App
  - Available for iOS & Android
  - Select custom presets
  - Switch sources

- Infrastructure Control Solutions
  - Control any API level function
  - API available at api.tvone.com

- Automation Control Solutions
  - Control any API level function
  - API available at api.tvone.com
  - Plug-in for Crestron

- tvONE Hardware Control Panel
  - Control any API level function
  - US form factor
  - Supports up to 128 commands

CORIOmaster2 is the newest member of our video processing family that meets every application, I/O count and budget.

**CORIOmaster2**
Optimized for 4K60 environments and is 8K ready. Display up to 40 4K video sources with no visible latency and up to 56 outputs.

**CORIOmaster**
Powerful stand-alone video wall processor for expansive 1080p installations which can also display up to 5 4K video sources and up to 56 outputs.

**CORIOmaster mini**
Compact form factor solution for smaller 1080p solutions with the ability to add 2 4K video sources and up to 10 outputs.

**CORIOmaster micro**
Ultra-compact processor for up to four outputs with 1080p environments with some 4K connectivity.
