SIMPLE CONTROL ROOM APPLICATION

CALICO PRO + Matrox ConvertIP: SMARTER CONTROL ROOMS START HERE

Matrox Video ConvertIP + tvONE CALICO PRO

Deliver advanced AV-over-IP workflows with precision, flexibility, and scale. The combination of Matrox Video ConvertIP and tvONE CALICO PRO is a dream team for advanced AV-over-IP workflows - especially where precision, flexibility, and scale are non-negotiable.

Use Case:

- Executive Briefing Rooms, NOCs & Control Rooms.

Why it fits:

- Matrox ConvertIP provides standards-based IP transport (SMPTE ST 2110, IPMX) for cross-brand interoperability. CALICO PRO adds multi-window layouts, real-time Input Mapping, flexible labelling, and Output Mapping for dashboards and data visualization.

This Configuration Enables:

- IP-based video transport using Matrox ConvertIP (SMPTE ST 2110 or IPMX)
- Advanced video processing and multi-window display via CALICO PRO
- Centralized control for operators to manage sources, layouts, and presets.
