

USA Toxic Substances Control Act (TSCA) Position Statement

All tvONE products are classed as “Articles” (manufactured items), as defined under US Code of Federal Regulations at 40 CFR 704.3 and so fall outside of the scope of TSCA reporting requirements.

tvONE does not supply chemical substances with the intent of them being used to create other products/articles, nor are tvONE products supplied with the intention that they are broken down into chemical substances.

tvONE has evaluated products used at our own manufacturing facilities and can verify that we do not use any of the below restricted substances in their raw form. We also carry out regular data information requests from our suppliers to ensure the same compliance.

- Asbestos
- Lead, when used in paint
- Polychlorinated biphenyls (PCBs)
- Dioxins
- Chlorofluorocarbons (CFCs, ozone depleting substances)
- Metallic mercury, when used in consumer products
- Formaldehyde, when used in composite wood products
- Nitrites, when used in certain cutting fluids
- Hexavalent chromium compounds, when used in water treatment
- Five Persistent, Bioaccumulative, and Toxic substances restricted in 2021:
 - PIP 3:1 (CAS 68937-41-7)
 - DecaBDE (CAS 1163-19-5)
 - 2,4,6 TTBP (CAS 732-26-3)
 - HCBd (CAS 87-68-3)
 - PCTP (CAS 133-49-3)

The information on tvONE products in this letter is based solely on information provided by the material suppliers and assembly manufacturers used by tvONE. tvONE makes no representation or warranty, express or implied, as to the accurateness or completeness of such information, and assumes no liability in connection with the use of this information.

Signed:

David Reynaga
Chief Technology Officer
