# ADVANCED FEATURES

### **8HD Player-Synchronized Playback**

Using CORIOgrapher, easily setup the 4K Streaming & Media module to deliver synchronized playback groups using up to 8 x 1080P/30 stored files to create stunning video belts. The multiple file groups can be added to playlists for simplified point-of-sale and broadcast background displays to prevent your video wall from becoming invisible and enhance the viewer experience.

# **Product Compatibility**

CORIOgrapher v4.1 is compatible with CORIOmaster2 versions running firmware version V601 or later. New CORIOmaster units will be shipped with these updates. Existing users can easily upgrade with the addition of a new, faster CPU module. For easy migration, simply backup and restore your existing video configuration.
